Beads of Courage Flagship Program Overview

The Beads of Courage Flagship program is available to children and teens experiencing a multitude of medical issues. Our Chronic Program encompasses a variety of medical challenges including chronic illnesses, trauma recovery, rehabilitation, and more. Fusion programs are used in very small hospitals or units combining more than one flagship program to meet their needs.

Each year, we expand to more areas and are grateful to all of the dedicated Beads of Courage Ambassadors who have incorporated these programs into their patient support practices. If you are interested in starting a Beads of Courage program, please contact krista@beadsofcourage.org.
